February 3, 1997

Mr Edwin Blair
President/CEO
MAIN STREET CONCEPTS
5220 Spring Valley, Suite 525
Dallas, TX 75240

Dear Ed

Congratulations to you and everyone at Main Street on being named a winner of the first-ever Convenience Concept Award! Your new store won third place overall in the Best New Store Concept category

The judging was especially tough for this overall category, and many stunning remodels and new store designs were passed over in favor of your entry. Why? Let me quote a segment of my March *Editor's Memo*.

"A decision on the winners for the Best New Convenience Concept ultimately hinged on that last word "concept." The word was chosen deliberately because we wanted to focus more on how convenience retailing is evolving, and less on "dressing up" existing stores—no matter how successful it was

Our winners, each in their own way, represent retail concepts that are truly new to our industry. They have gone beyond even a radical redesign to create something that breaks almost completely with the image of the convenience stores of the past and sets a higher standard for utility and customer-friendliness

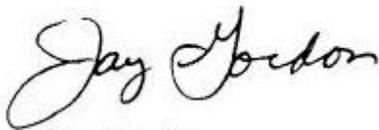

Convenience Store Decisions is proud to be the first to recognize the accomplishments of companies like yours as they redefine the image of convenience stores and position themselves to be dominant competitors in the 21st century. It's our hope that the Convenience Concept Awards can be used to further the "redefining" efforts of other convenience store companies.

February 3, 1997
Mr Ed Blair
Page 2

The convenience store industry was founded in a spirit of entrepreneurialism, and it will continue to flourish if that same spirit is continually applied to evolving the concept of convenience. It is a spirit our company strongly identifies with and is proud to be a part of.

Congratulations again to you and your organization, Ed. It is an achievement you can all be proud of. Best wishes, too, for continued success.

Sincerely,

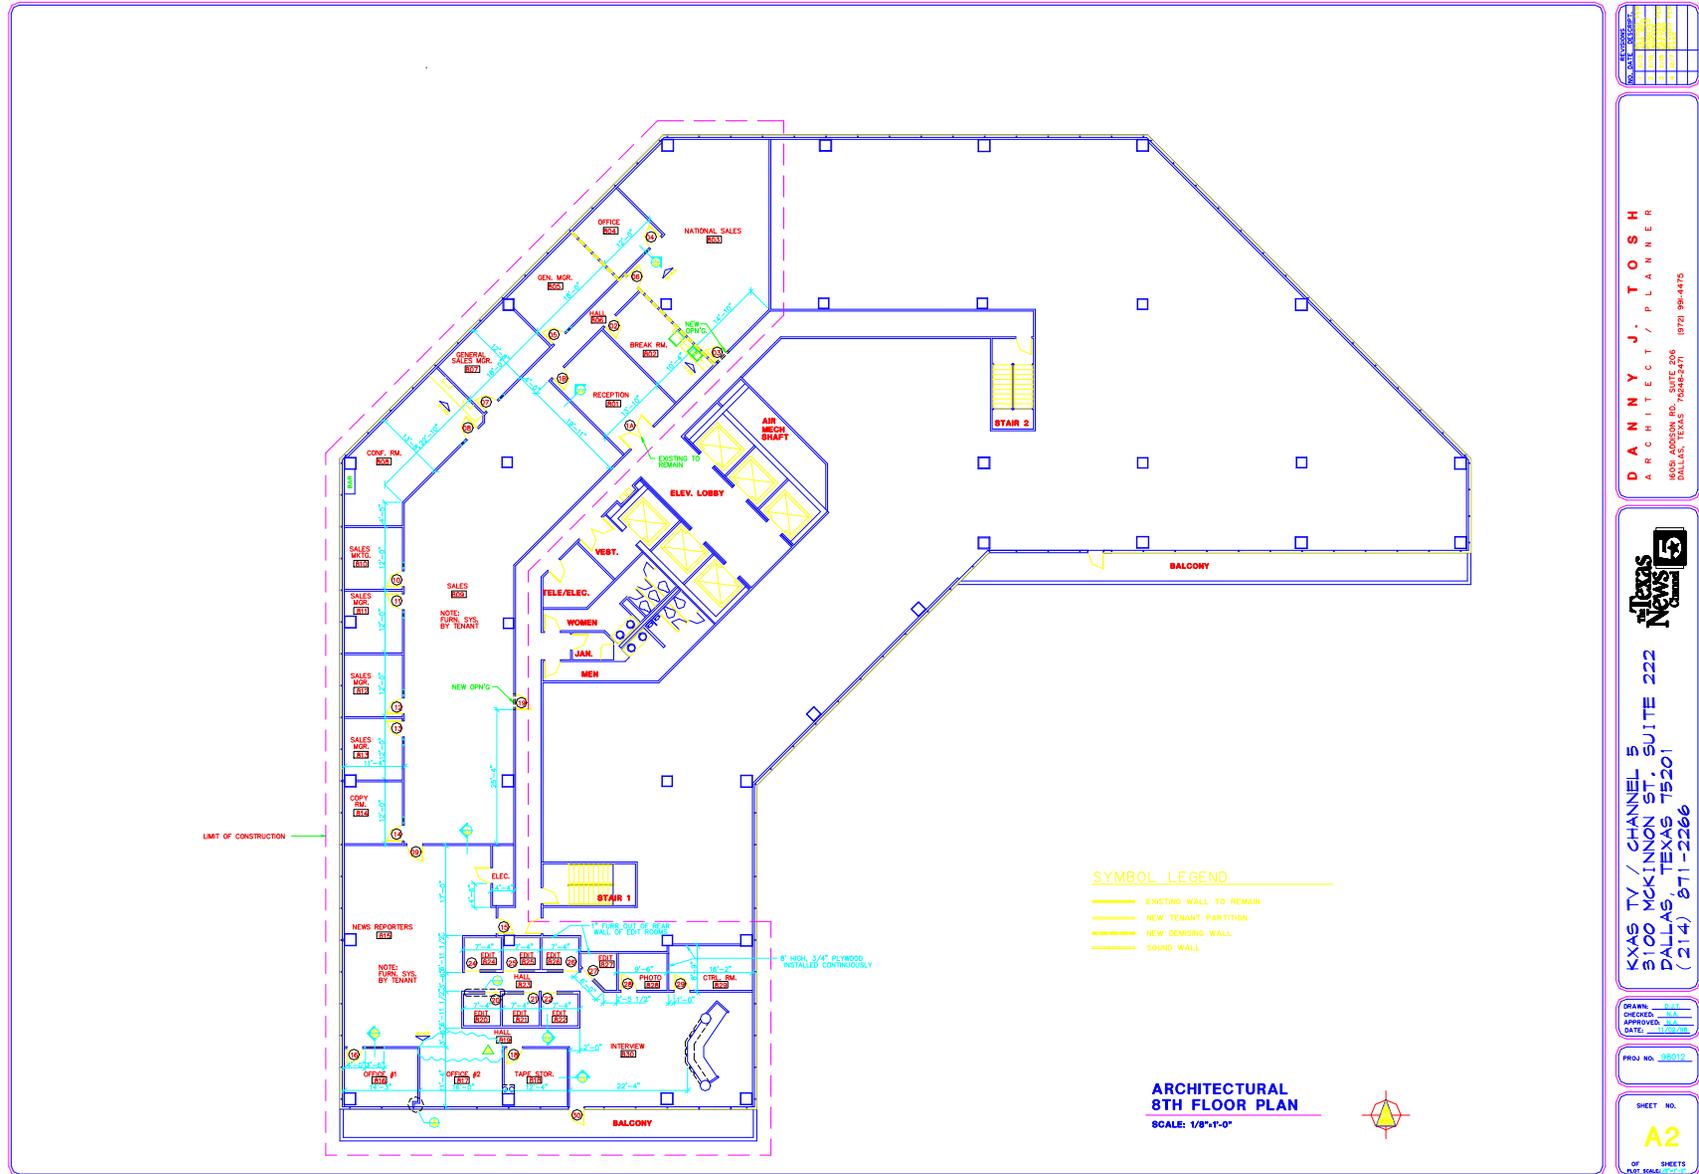

A handwritten signature in black ink that reads "Jay Gordon". The signature is written in a cursive, flowing style.
